

## BOX 1800 ROOM DIVIDER

*for Water Vapour Fireplace with Lumisty*

### READY-MADE RECESS FINISH

A complete solution that defines proportions while adding architectural depth and a well-considered structure to the wall. The ready-made box reduces installation time and delivers a cohesive, refined visual result.

### SEAMLESS MATERIAL INTEGRATION

Designed to ensure harmonious and effortless integration with finishing materials, decorative surfaces, and fireplace cladding. The box naturally blends into the wall architecture, creating a unified interior composition.

### DRAFT PROTECTION FOR THE FLAME

The structure is equipped with sliding glass panels that protect and stabilize the flame against air drafts in open installations without a back wall, such as island or room-divider setups. This removes the need for drilling or interfering with the platform or decorative materials.

### MINIMALIST FLAME DISPLAY

A dark, contrasting background enhances the flame's appearance and visual impact. The enclosure removes visual distractions and unwanted ceiling reflections, keeping the flame in an elegant recess and as the interior focal point.

Box 1800 Room Divider
